

WHAT'S BLOOMING AT FLORIDA-SPECTRUM...

FLORIDA-SPECTRUM ENVIRONMENTAL SERVICES, INC.

WE ARE PROUD TO ANNOUNCE THE NEW AND NOW...

As Spring nears, our blooming period continues to strengthen our relationship and our position as a significant laboratory service provider in the South Florida market. All you need to do is give us a try... Plant your seed and we will help you blossom!

"NEW CERTIFICATIONS"

167 NEW ANALYTES

Appendix IX Compounds

1, 4 Dioxane

Tert Butyl Alcohol (TBA)

Thorium (200.8)

200.10 Metals (Saline Waters)

SOCs (62-550)

And much more

These additional certifications provide you with more testing resources and client-friendly service. This allows FSES to complete your drinking water volatiles, metals, general chemistry, THM, HAA, and SOC sample analysis all in-house!

The Florida Environmental relationship delivers quality and service you can count on.

Ultimately, that is the best guarantee we can offer. Our clients come first.

Commitment to project success is implicit in everything we do.

Our objective is to exceed client expectations.

We are your partner!

Please contact us to experience the Florida-Spectrum commitment to excellence today!
